

RIO SILANCHE BIRD SANCTUARY BIRD CHECKLIST

Updated June 2015

This list also includes species seen along the entrance road. The number codes give a general idea of your chance to see a bird on a short visit. Code 1's are common or conspicuous species that you have a good chance to see on any given day. 2 means an uncommon species, or a shy bird that can be difficult to see even if it might be common. Code 3 birds are either rare, very difficult to see, or both. Taxonomy follows eBird/Clements (2014 version), with alternate English names in parentheses.
